*Per the prebid meeting, the location of the well is to be changed vs. what was shown on the Bid Documents. Even though the Bid Drawings were not revised, Addendum 1, Q/A #1 states that the pipe section is 600 feet. We have made reasonable assumptions as to the projected route of the piping from the new proposed location and have included an appropriate number of pipe appurtenances for this work. If the original location is to remain and the lineal footage of pipe is 3000 feet, then please apply our unit price rate accordingly and recalculate the final total.
